Workshop Purpose

This Workshop provides an opportunity to use our God-given creative talents to expand the pro-life movement. This Workshop seeks to launch a regular practice of Outreach Activities, as well as regular meetings to plan, evaluate, and promote such activities. Outreach Activities include spreading the pro-life message, as well as recruiting participants in and developing leaders for the pro-life movement.

Workshop Content

Christine Fauci Wittman serves as our principal presenter. Christine is a motivational speaker and professional counselor who is a faithful and zealous advocate for spreading Our Lord's Gospel of Life. She will provide inspiration and practical tools for Outreach to both new and experienced participants in the pro-life movement.

There will be brief presentations from local participants who are faithfully and effectively participating in pro-life Outreach activities.

Finally, there will be individual evaluations, followed by group discussions and reports, to evaluate current Outreach Activities, propose additional Outreach Activities, and plan action on some of them.

Criteria for Attending and Expected Requests

Please be willing to risk the potential discomfort and the fear of rejection that Outreach Activities involve. Attendees also need to bring their completed responses to a Survey to this Workshop. This Survey is available at www.HV50Philly.com or can be received by mail or email in response to a phone call or email request.
